New Business

1. Submitted parent questions (s):

- Is there a way to stockpile juice boxes, snacks with a long shelf life, in case there is another “shelter in place” like 25NOV2025? Maybe this could be an event for NHS/Student Council or some such entity at the school? (5h grade doesn't get snack on the daily anymore anyway.)
 - This response was tabled, while we obtain guidance to support the students in the event, this happens again. The students were going to obtain a snack from the cafeteria, however, the order was lifted.
